

CITY OF BELTON PUBLIC WORKS DEPARTMENT TO HOLD PUBLIC MEETING

All interested parties are invited to a Public Meeting on **October 13, 2025**, concerning the environmental impacts of the proposed Olson Acres Sewer Improvements Project. The project is funded through the Missouri Department of Natural Resources State Revolving Loan Fund program and will replace sanitary sewer throughout the Olson Acres subdivision including the addition of a lift station and force main to transport the subdivision's sewage to the City of Belton's sewer interceptor to the east. This will allow for the decommissioning of the existing lagoon at 18702 Garden Avenue. The meeting will be held from **5 p.m. to 6 p.m.** at the City of Belton's Public Works Facility, Building A, 700 Seabee Road, Belton, MO 64012.

The Public Meeting is an Open House Meeting which means no formal presentations will be made. You may attend the meeting any time during the advertised hours to discuss the project, ask questions, and offer your comments. You will have the opportunity to document your comments in writing at this meeting as well.

We understand the importance of this project to the residents in this area and will be glad to answer any questions you might have about this project.
